

ARCHITECTURAL  
GRATES + DRAINS

# 65PS40

## Linear Drain

The 65PS40 is our Punched Slot grate designed to be used with our Special Assembly units 65G100 and 65G90.

A 65mm wide UPVC channel is connected via downpipes at 200mm intervals to sockets in a 100mm drain below. This allows the channel to be installed level while the drainpipe is given sufficient fall to be self-cleaning.

Please be aware that depending on the installation environment, for a pool installation or close to a surf beach, you may need to have your stainless steel grates electropolished.

This unique drainage system was recognised for its innovation by a DesignMark at the Australian International Design Awards.

**Code** 65PS40

**Range** Special Assembly

**Grate Style** PS

**Category** Components

**Channel Material** Stainless Steel

**Steel Grade** 316

Grates longer than 1500mm supplied in sections. Tile Inserts longer than 1200mm supplied in sections. Channels over 3000mm supplied in sections with joiner. +/-2mm tolerance on dimensions.

### SPECIFICATIONS + DIMENSIONS

|                      |       |        |        |        |
